## **Learn about the Identification of Innovative Practices for Mental Health & Addictions:**

- Listen to and reflect upon a patient story related to experiences with mental health and addictions
- Understand the purpose and approach to identifying these practices in the field
- Participate in a ‘sneak peek’ of our current work and what is coming with these important practices
- Collaborate with your colleagues

### **Guest Speaker:**

**Tracy Koval** is a registered nurse who works as a clinical system navigator for the North Simcoe Community Health Link. Tracy received a Bachelor of Science in nursing from the University of Toronto’s second degree entry program following a Bachelor of Arts degree in Kinesiology and Health Science at York University. Although Tracy’s career started at Sunnybrook Hospital as a labour and delivery nurse, her passion resides in community health. Prior to her role at the Health Link, Tracy worked as a chronic disease nurse educator at Chigamik Community Health Centre in Midland Ontario. Tracy has chosen to work in the community she grew up in because she recognizes the impact of the social determinants of health on the population.

**Moderated By: Shannon Brett, Manager, Program Delivery**
